# Prestigious new corporate headquarters in the federal capital.

When constructing the façade – it has a total area of 10,500m<sup>2</sup> – three different façade types were used in the installation. Thus, the MINI element was covered with a dark transom/ mullion façade, while the BMW elements and the motorcycle centre on the ground floor as in the first upper floor were furnished with a grey-white transom/ mullion façade and in the storeys above with a sectional construction façade in horizontal aluminium slat construction.

## Impressions

## Image notes

1

**BMW Berlin branch.**

Attention getter in highly frequented location

2

**BMW Berlin branch.**

The car park is connected with the spiral access ramp via three bridges.
