New building for the effective benefit of the tenants

After explosive ordnance clearance, comprehensive soil filling on the approx. 30,000 m² construction site and the rapid erection of the building shell of the main hall, the elaborate TGA could be installed and the first machine components assembled by Nordson during the ongoing extension work.

This meant that Nordson's production work could begin immediately after handover. Subsequently, the old production hall, which had been vacated in the meantime, was also equipped with new TGA and handed over to the customer together with the second new hall.

Construction work in figures

1.950 m ²	usable area of new administration building
7.480 m ²	usable floor space new halls
1.930 m ²	usable floor space Conversion of existing hall
11.000 m ²	11.000 m ²

Impressions

Image notes

1

Expansion Nordson, Münster

A new administration building and two new production halls provide more space.

2

Expansion Nordson, Münster

The administration building with canteen and adjacent halls.
