A modern airport hotel

Together with the conference rooms, the lobby boasts an area of approx. 1240 m², which is separate from other areas for fire safety reasons, and is intended for a maximum capacity of 520 people.

The roof of the square building is designed as a flat roof. The outer façade of the building is coated with sheet metal, and the inner courtyard façade is designed as a thermal insulation system façade. The underground gross floor area comes to a total of approx. 2283 m², the overground gross floor area to approx. 12,418 m². The Holiday Inn Hotel should receive a DGNB Gold and a LEED Gold certificate.
