A home away from home

Improved occupational health and safety

Occupational safety was enhanced by the use of the Doka “FreeFalcon” mobile anchor mast system. This is a fall arrester with a safety harness to secure construction crew members while ensuring a working radius of up to 10m. No additional trip hazards were created because the anchor point is situated above head height.

Construction output in figures

52,500m ³	gross cubic capacity
17,800m ²	gross floor area
10,500m ²	residential/usable floor area

Impressions

Image notes

1

A beautiful view of the impressive architecture

Beautiful view of the successful architecture

2

The new hotel and apartment complex in Essen is a real eye-catcher

The new hotel and apartment building is an eye-catcher in Essen
