Elegant and representative building of glass and stone

The use of only two materials: glass and natural stone – plus the bronze-coloured aluminium window-frames – lends Lindlar-Haus a timeless and elegant appearance. In order to combine an efficient use of space with a light external appearance, the third floor on the pedestrian area side is set back, allowing space for a narrow roof terrace.

The sprinkler plant is accommodated in the sub-basement. On the roof there is a plant installation space that is enclosed by a metal louvred screen designed to match the cladding of the facade.

Impressions

Image notes

1

Lindlar-Haus

The representative office building with retail and office space is located in the center of Bergisch-Gladbach.

2

Lindlar-Haus

The client was the Cologne District Savings Bank which also has a branch in the new build project.

3

Lindlar-Haus

This elegant building with a stone façade is located in the pedestrian zone of Bergisch-Gladbach.
