Industrial charm meets contemporary style

A sophisticated visual design

The framed formwork system “Doka Framax Xlife plus” is used to construct the fair-faced concrete walls. This produces a consistent and visually appealing formwork pattern for the fair-faced concrete components, while at the same time guaranteeing cost-effective operations.

While work here is underway, an existing building from the 1950s will be also extended by one storey. A stacked storey will be built on top of the old factory building using the same timber frame construction method.

Project data for Building No 11

26,800m ³	gross cubic capacity
6,500m ²	gross floor area
550m ²	slab formwork

Impressions

Image notes

1

Marzipanfabrik, Building No 11, Hamburg

Representative building adorns new urban quarter (Building No 11)

3

Marzipanfabrik, Building No 11, Hamburg

A large glass front provides the offices with ample natural light

2

Marzipanfabrik, Building No 11, Hamburg

A glass walkway bridges the gap to the existing Building No 12

4

Marzipanfabrik, Building No 11, Hamburg

Architectural modification of the existing building (Building No 26)
