featuring floor-to-ceiling windows in metallic gold.

## **All under the one roof: PORR Spezialtiefbau executes the foundation works**

PORR is able to provide all the necessary services for the project. The alternative foundations are being constructed by the specialist civil engineering experts at PORR subsidiary PORR Spezialtiefbau. These foundations feature 250 solid displacement Atlas piles measuring 20-30m in length.

The An der Mole development is the third project on which PORR has provided general contracting services to HOWOGE, following on from the Q218 and Frankfurt Allee 135 construction schemes.

## Image notes

1

Quartier MOL – An der Mole, Berlin

In one of the most sought-after residential areas of Berlin, directly on the Rummelsburger Bay, PORR Hochbau Ost, as the general contractor, constructed an eight-story residential building with 169 units within two years.

2

Quartier MOL – An der Mole, Berlin

The ground floor has space for commercial premises and a day-care centre.

3

Quartier MOL – An der Mole, Berlin

Each of the 1- to 5-room apartments has a view of the water.
