PORR

New construction of energy efficiency apartments

High-quality building standard

The buildings are designed with a thermal insulation composite system façade featuring appealing mineral sgraffito ornamental plaster and partial cladding with clinker bricks. The different building colours distinguish the buildings from each other, while at the same time creating a unifying appearance at the same time. As a special design feature, distinctive white ornamental bands have been mounted around each window. Elaborate, extensive outdoor facilities complement the successful planning.

Technical data

60,400 m ³	Gross cubic capacity
18,900 m ²	Gross floor area
76	Underground parking spaces
124	Apartments

Impressions

Image notes

1

Quartier M1, Münster

The different building colours differentiate the buildings from each other, but still show that they belong together.

2

Quartier M1, Münster

The individual buildings each comprise up to 29 flats.

3

Quartier M1, Münster

A total of 124 flats with 76 underground car parking spaces as well as bicycle parking spaces were built on three construction sites.
