[Project report online](#)

www.porr-group.com

Monument-protected building as the main command of the US Air Force.

In addition, all the rooms have been finished with high quality materials such as acoustic ceiling, wall and floor tiles, vinyl and carpet flooring and baseboards.

Internal and External closures such as Fire Rated Doors, ordinary metal and wood doors, security doors, Aluminum and Metal windows, ATRP windows, metal grids, etc. and the related doors and windows hardware have been delivered and installed. Ordinary and ADA bathrooms have been designed and constructed.

The finishing includes metal works such as external metal stairs, handrails, beams, etc. The technological systems include Power and Illumination system, HVAC system, Plumbing system, Communication System, SCIF Area, Sprinkler and Fire Detection systems.

Minor external hardscape works were performed.

Impressions

Image notes

1

Comprehensive planning and renovation.

This former Italian military facility was converted into the new main command of the US Air Force.

2

Construction work during ongoing operation.

As an occupied building, careful coordination was required to ensure the continued operation of the government offices, the cafeteria and the dining room.
