# Recyclable office building with removable timber facade

---

Watch our project video\* :

- [PORR Germany . The Cradle, Düsseldorf](#)

---

The stairwell is made of recycled concrete (RC concrete), where crushed natural stone and naturally formed gravel is partly replaced by recycled aggregates, i.e. processed construction rubble. A thoroughly future-oriented construction project, which already received several awards even before construction works began.

For PORR, the implementation of a such a sustainability project is no longer a novelty: in Münster, we have already successfully implemented the 7-storey administration building of SuperBioMarkt AG using hybrid construction.

## Construction output in figures:

---

47,090 m <sup>3</sup>	Gross cubic capacity
-----------------------	----------------------

---

13,360 m <sup>2</sup>	Gross floor area
-----------------------	------------------

---

# Impressions

## Image notes

1

The Cradle, Düsseldorf

An innovative timber hybrid house was built in Düsseldorf's Media Harbour.

2

The Cradle, Düsseldorf

A total of 7,200 m<sup>2</sup> of office space was created here in a prime location on the Rhine, as well as 600 m<sup>2</sup> of high-quality catering space on the ground floor.

3

The Cradle, Düsseldorf

With its spectacular appearance in element construction as a timber-concrete structure with a striking, diamond-shaped façade structure made of wood and glass.
