# Turnkey construction of new office and administration building

the modern building offers excellent infrastructure links in an attractive business environment. More than 150 companies with over 2,000 employees are already present on the Expo site. The location will be further enhanced with another 3,500 residential units and good local amenities, daycare centres and a primary school by 2023 as part of Lower Saxony's biggest housing project, 'Kronsrode'.

## A modern façade made of prefabricated parts

The building is accessed via two striking main entrances with an especially high-quality curtain wall that emphasises the metal elements that run up the exterior of the building. From the ground floor upwards, the entire perforated façade of the outer walls is made of prefabricated reinforced concrete parts. The projecting exterior elements, featuring struts aligned according to the position of the sun, showcases the metallic look of the façade to best possible effect. The unusual design of the front of the building is made even more distinctive by the special colour used – 'Champagne Metallic'.

## Impressions

# Image notes

1

Torhaus Expopark, Hannover

Many windows in the modern new build ensure that the rooms are flooded with light.

2

Torhaus Expopark, Hannover

An architecturally and technically sophisticated office and administration building was built on the former Expo site in Hanover.

3

Torhaus Expopark, Hannover

Depending on the position of the sun, the façade emphasises the "metallic effect" in the special colour "champagne metallic".
