# PORR builds apartment buildings in modern residential project

The building construction team from Düsseldorf is responsible for the partial turnkey construction, including earthworks, reinforced concrete and masonry work, roof and facade work, and all finishing work (excluding building services and outdoor facilities).

The shell will be constructed in the traditional manner using concrete and masonry. A sand-colored brick facade will give the building a bright, high-quality appearance. The roofs will be green, and almost all apartments will have a terrace, loggia, or balcony.

## Attractive housing offer for employees

With discounted company apartments, DGN is strengthening its profile as an attractive employer in the Rhineland metropolitan region. Some apartments are intended as furnished boarding apartments for project-related collaboration with external specialists. Local amenities and a daycare center currently under construction ensure short distances and a high quality of life in the new neighborhood.

## Impressions

## Image notes

1

Mehrfamilienhäuser, Kaarst

PORR Hochbau Region West is building three three-storey residential buildings with 38 residential units in the new Commerhof residential quarter in Kaarst.
